

Presto-Tap®

Presto-Tap #6800B-90

300 psi Ambient Temperature Gauge with Bleeder Valve
Shown Attached to 90° Quick Adapter (RV-QA-90)
W/Belt Loop Holster

Available with Straight Quick Adapter Also

Used to obtain pressure readings and perform leak tests with Presto-Tap LDS Products installed at tank pressure locations (i.e., Presto-Tap #PT912 & PT913 Series Pigtailed, #TPF (Tank Pressure Fittings) LDS2000/RV (Regulator Valve at tank pressure) and RegO “Ready to Go” Valves. Designed to be carried by Drivers & Service Technicians and readily accessible.

Confirms presence of liquid in the tank when the ambient temperature reading on the gauge faceplate (opposite the psi pressure reading when attached) closely matches the outside surrounding ambient temperature.

When ordered, the Belt-Loop Holster is included.

U.S. Patented & Canadian Patented

U.S. Patent # 5,787,916, etc...
